

Bowl Tooler

Executive Automation Systems (Moorfeed Corporation), a growing Automation and Parts Feeding Equipment manufacturer, is currently seeking full time **Bowl Toolers** for our custom equipment division. The position will be primarily responsible for tooling basic vibratory feeder bowls based on project information provided by engineering. The position may also require the tooler to work as a service technician and may require some travel.

Job Responsibilities

- Tool vibratory basics based on engineering requirements
- Document system information once tooling is completed
- Adhere to standard manufacturing and quality procedures
- Perform other vibratory bowl related work, including but not limited to: polishing, tuning, tooling re-works, and off-site service work.

Experience/Requirements

- Minimum 5 years' experience with tooling vibratory feeders
- Excellent TIG welding experience
- Positive attitude and able to handle tense situations
- Team player, able to take direction
- Show up for work every day on time
- Able to work overtime as needed

Job Offering – Pay based on experience

- Personal Time Off within 30 days
- Health Care
- Dental
- Vision
- Term Life
- 401K (with matching)
