

## Production Welder (MIG)

Executive Automation Systems (Moorfeed Corporation), a growing Automation and Parts Feeding Equipment manufacturer, is looking for a **Production Welder (MIG Welding)**. The position will work with the fabrication department to prepare items for welding and assembly. You will operate appropriate equipment to put together mechanical structures or parts with a great deal of precision. Your job is important as it provides the foundation for vibratory machinery. The welder must be competent in using potentially dangerous equipment following all safety precautions. The ideal candidate will also have a steady hand and great attention to detail.

### Job Responsibilities

- Read blueprints and drawings and take or read measurements to plan layout and procedures
- Determine the appropriate welding equipment or method based on requirements
- Set up components for welding according to specifications (e.g. cut material with powered saws to match measurements)
- Operate angle grinders to prepare the parts that must be welded
- Align components using calipers, rulers etc. and clamp pieces
- Weld components using manual or semi-automatic welding equipment in various positions (vertical, horizontal or overhead) Maintain a clean and tidy working area
- Show up for work every day on time
- Show mutual respect for coworkers
- Maintain a positive attitude

### Requirements

- Proven experience as welder – A weld test will be given prior to hiring
- Experience in using electrical or manual tools (saws, squares, calipers etc.)
- Ability to read and interpret technical documents and drawings
- Knowledge of relative safety standards and willingness to use protective clothing (face-shield, gloves etc.) Team player, able to take direction
- Ability to lift 50-75 lbs.

### Job Offering

- Personal Time Off within 30 days
- Health Care
- Dental
- Vision
- Term Life
- 401K
